

LDB Update
March 25, 2020

BCLS continue to operate across the province with the exception of a couple of stores in some of the smaller communities who hit critical staffing levels. On a positive note, we didn't see additional staffing shortages on the North Shore today and Esplanade opened (with reduced hours).

You can view store closures at bcliquorstores.com.

Both KDC and Delta DCs continue to see high volumes. Both are functioning with lower than optimal staffing levels, we are planning to add extra shifts in DDC this weekend. As a contingency measure DDC has requested some of our large Agents to drop containers into our yard in Delta, in the event that regular inbound appointments are missed next week it gives the DC the ability to shift resources to empty these containers - this team is planning and managing really well!
