

Felix Egerer, Tantalus Vineyards

Felix has been the Viticulturist at Tantalus Vineyards in Kelowna since 2018. Academic training at UC Davis and Geisenheim University as well as harvest experiences in cool climates around the world eventually lead him to work the 2016 harvest at Tantalus before switching from a winemaking track to viticulture. His focus lies on establishing and maintaining regenerative agriculture systems, especially with regards to soil management. He joined the WGBC Board of Directors as a representative of the BC Grapegrowers Association in 2020.
